Data Protection Code of Conduct
ver 1.0

- Carried out two public consultations during 2012
- Carried out a pilot with the CLARIN community 2012-2013
- Submitted for approval to eduGAIN Technical Steering Group 31st May 2013
  - Voting has started

- Then uptake in federations. How? Ideas?
  - Strong federation operator involvement needed
  - Together with a research community such as CLARIN?
Future development: “legal” track
1. Submit to Article 29 working party (an EU data protection body)
2. Develop another Code of Conduct for non-EU/EEA attribute release
3. Extend the Code of Conduct for release of optional extra attributes

Future development: “technical” track
1. Related changes to IdP attribute release modules (uApprove etc)
2. Develop a web crawler to collect and archive privacy policy documents
