

Data protection Code of Conduct update

REFEDS in Belgrade, 19-Nov-2012

Mikael.Linden@csc.fi

REFEDS attribute release wg & eduGAIN policy

Status: Document updates

- New "GÉANT Data protection Code of Conduct for SP in EU/EEA"
 - Based on the comments received in 6-8/2012
- Supporting documents for the Code of Conduct for SP
 - Thanks to Nicole, Peter, Leif, Thomas, Chris and Andrew for comments!

=>Substantial simplifications

- https://refeds.terena.org/index.php/Data_protection_coc

Code of Conduct for SPs:

- Allow use outside GÉANT (e.g. locally in federations)

Supporting documents for the CoC:

- Use Entity Category attribute to indicate compliance
 - SP or Home Federation asserts
- Don't expect SP's to sign (ink/digitally) the CoC
 - Just a link from SP's Privacy Policy document
- Reduced mandatory SAML2 metadata requirements
 - **MUST:** the EntityCategory, mdui:PrivacyStatementURL and RequestedAttributes

- Normative
 - **GÉANT data protection code of conduct for SPs in EU/EEA**
 - **Entity Category** Attribute for the Code of Conduct
 - **SAML 2 Profile** for the Code of Conduct
- Informative:
 - Introduction to **Data protection directive**
 - Introduction to **Code of Conduct**
 - Managing data protection **risks**
 - **Privacy policy** guidelines for Service Providers
 - What **attributes** are relevant for a Service Provider
 - Data protection **good practice for Home Organisations**
 - Federation **operator's guidelines**
 - Handling **non-compliance**
 - Notes on Implementation of **INFORM/CONSENT GUI** Interfaces

Public call for comments

- Starts NOW and ends 31st of Dec, 2012
- Covers all Code of Conduct documents
 - https://refeds.terena.org/index.php/Data_protection_coc
- Email your comments to edugain-policy-comments@geant.net
 - Please use the comment template available in the URL above
 - Comments and resolutions will be published

Code of Conduct pilot with the CLARIN community

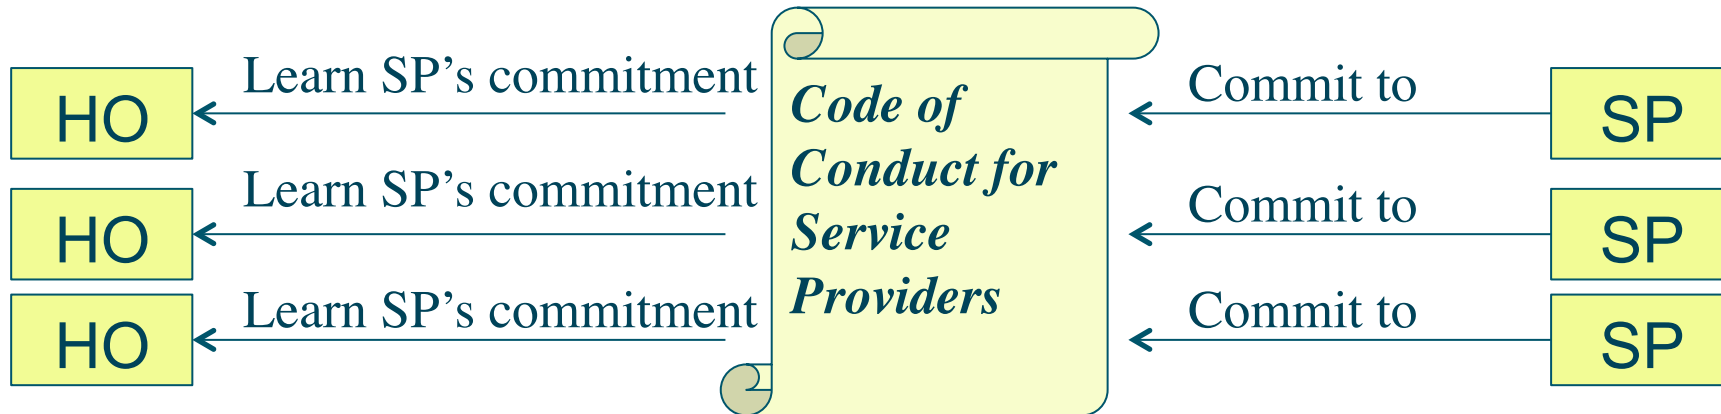

- Goal: to ensure the Code of Conduct is
 - Legally solid: solves the attribute release problem
 - Technically solid: can be implemented
- Home Organisations in the pilot:
 - Utrecht university (SurfFed)
 - Institut für Deutsche Sprache and DFN (DFN-AAI)
 - University of Helsinki (Haka)
- Service Providers in the pilot:
 - MPI in Nijmegen (SurfFed): Isocat and metadata component registry
 - CSC (Haka): LAT
 - Institut für Deutsche Sprache (DFN-AAI)
 - Tübingen university (DFN-AAI)
- Pilot to end in 12/2012

Backup slides

Very short introduction: Data Protection Code of Conduct

- A legal statement made by an SP on its privacy practice
 - Derived from the EU Data protection directive
- SP indicates its commitment to the CoC in SAML metadata
- Home organisations (in EU/EEA) may feel more comfortable to release attributes to the SPs that indicate compliance with the CoC
