

# A Word from Your Customers

Jim Basney (CILogon)

Scott Koranda (LIGO)

Chris Whalen (NIAID)

You know why we are here...

You know what we want...

Please don't make us ask again...

Well, if we have to...

# Ask 1: SAML Interoperability

Please help IdPs to consume eduGAIN SP metadata so users are not stranded at the IdP.

# Ask 2: Release Attributes

Please help IdPs release the R&S attribute bundle to our R&S SPs.

# Ask 3: Tag the IdPs as R&S Supporting

Please tag IdPs that do release the R&S attribute bundle to our R&S SPs with the proper entity category so we can filter metadata for discovery.

# What can we do for you?

Seriously, what should we do differently than what we are doing?

(Assuming you agree with the service provider approach...)
