OIDC in Research and Education (OIDCRe) working group

- the REFEDs OIDCRe as the place where OIDC related work that is relevant for R&E is being tracked and followed
- Sometimes it is the place where the actual work also happens, like e.g. the SAML2 <-> OIDC mapping whitepaper
- Projects and activities may use the OIDCRe wg as a channel to engage stakeholders in our community
- It can (should?) also be the place where we as federations discuss strategy and alignment between the various work that is going on
- Mail list: oidcre@lists.refeds.org
