

# SimpleSAMLphp

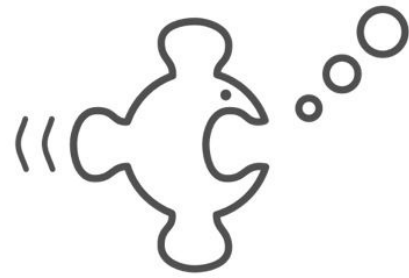

REFEDs #44 @TNC2022

# SimpleSAMLphp - quick overview

- SAML IdP/SP and OIDC OP/RP, and proxy
  - 18+ Contributed modules (additional protocols, MFA, consent, user & management interfaces)
- Second most used SP/IdP product in eduGAIN (~1k deployments)
  - 'Core' product in several national federations
- Active development since 2009 (SSP 1.0)
  - ~ 3-4 releases per year
  - Now at [SimpleSAMLphp 1.19.5](#)
  - Started out at FEIDE/UNINETT (now SIKT)

# SimpleSAMLphp - changing governance

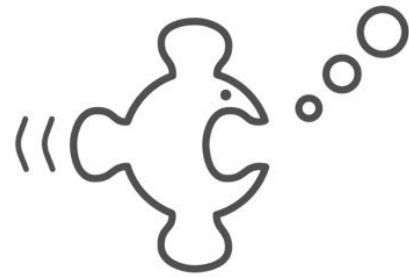

- UNINETT announced it will end direct support for SSP
- SSP board was formed to transition SSP and its 'assets' into a new governance
- And safeguard continued maintenance and development

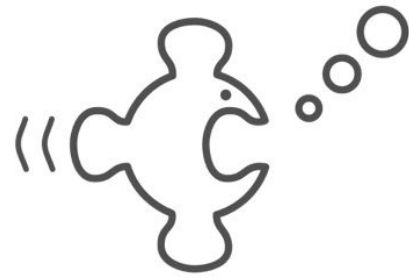

Introducing the board: Dedra Chamberlin, Jaime Pérez, Jan Meijer (chair), Marina Adomeit, Niels van Dijk

# SimpleSAMLphp - work so far

- SSP moved from UNINETT into '[The Commons Conservancy](#)'
  - Provides template and facilities to manage and grow Open Source projects
  - Governance: [Formal Statutes](#) filed on 21-04-2021
  - Financial: allows for sponsors and fundraising
  - Provides legal basis, e.g. for contracting
- SSP website moved from UNINETT infra to Github pages
- Collected initial sponsoring

# SimpleSAMLphp - whats next?

- Set out to find a [SimpleSAMLphp lead maintainer](#)
- SSP 2.0 is around the corner
- Set up a fundraising
  - No software should go without proper support
  - Make sure SSP remains secure and error free
  - We need your support!
  - For a financial contribution, contact [jan.meijer@sikt.no](mailto:jan.meijer@sikt.no)

Many thanks to sponsors **SIKT.no** and **Cirrus Identity**
